RUSSIA IS WARNED.

Senator Lodge's Startling Speech on Chinese Question.

Boston , Mass., June 25. - Senator Henry Cabot Lodge, a member of the foreign relations committee of the senate, made a remarkable speech at the Saturday afternoon meeting of the Essex club, held to ratify the nomina-tion of McKinley and Roosevelt. He described the work of the past four years, commented on the work of the convention, declared that Roosevelt

"We have put the tariff law on the statute books; we have put the gold standard law on the statute books; we have much the war with Spain; we have made the peace with Spain; we have made the peace with Spain; we we have fought the war with Spain; we have made the peace with Spain; we have given Hawall a government; we have given Hawall a government; we have given Porto Rico a government; we are restoring order in the Philippines; we are guiding Cuba along the path to independence and safe government. There remains the question of expansion I am not going to argue that great question here this afternoon. I shall have occasion to say a great deal about it to the people of Massachusetts, I suppose, before they vote in November. But all eyes are fixed upon China, it looks as if the agony of that great empire, so long predicted, had begun. It may be postponed, it may be put off; but the great question of China is there. It would have arisen if Dewey had never seen Mamilla Bay. We had for thirty years but one ship on the for thirty years but one ship on the China station, the old Monocacy, which was too weak to be taken across to

The governor returned to the executive
office this morning refreshed after a Sunday rest, but the need of a vacation was
very much in evidence after he had gone
through the morning mail.

In an envelop bearing four stamps, two
of which were 'postage due," the governor found a Fourth of July poem. He
read it through. The office force thinks
the governor will be able to eat supper.

The poem came from a woman in Tacoma. Wash. It was worse than similar
productions of the early spring. What
was regarded as the worst feature of the
effort was the diagram which accompaniled it. The poet raved about the
Fourth of July, and displayed in the
fourment a pian by which the poen
might be illustrated on that "glorious and
funified day." The reference to fruitful
